The Town of Dover was awarded a grant in the amount of \$200,000 from the Baseball Tomorrow Fund (BTF). The grant supported the renovation of the youth baseball and softball fields at King Field. Renovations included the playing surfaces and the installation of new backstops and fencing. The improvements created a recreational facility that will strengthen the foundation of the existing youth baseball program and further energize interest in the ever-growing program. These improvements will also provide a softball facility for the girl's high school program.
