TOWN OF DOVER MAYOR & BOARD OF ALDERMEN

ORDINANCE No. 20-2020

ORDINANCE OF THE MAYOR AND THE BOARD OF ALDERMEN OF THE TOWN OF DOVER CREATING THE OPEN GOVERNMENT- TRANSPARENCY AND PARTICIPATION ACT

SYNOPSIS

“The Open Government – Transparency and Participation Act,” provides the guidelines to increase open government, transparency, and community collaboration in the Town of Dover, County of Morris, State of New Jersey.

BE IT ENACTED by the Mayor and Board of Alderman of the Town of Dover, County of Morris, State of New Jersey:

This act shall be known and may be cited as the
“Open Government- Transparency and Participation Act”

WHEREAS, in 1991, the New Jersey Supreme Court confirmed, in *South Jersey Pub. Co., Inc. v. N.J. Expressway Auth.*, 124, N.J. 478, 491-92, that:

Governmental secrecy shrouds corruption and engenders public distrust in government and its officials. Whether dishonesty does, or does not, exist is irrelevant. The important factor is that "secrecy" creates a belief that it exists which, if extensive enough, could destroy needed public support for government action. * The sole method of combating these notions is to demonstrate their falsity by opening the doors of government so that the truth may be viewed by all.

Quoting Kugler, *New Jersey's Right to Know: A Report on Open Government* 175 (1974).

WHEREAS, the Mayor and Board of Aldermen find that good government depends on knowledgeable citizens who have broad access to government meetings and who have ready and inexpensive access to a wide range of government information. Such access enables them to participate fully in public affairs, help determine governmental priorities and to hold their public officials accountable; and

WHEREAS, Transparency promotes accountability and provides information maintained by the Local Government for citizens about what their Government, including their elected and appointed representatives, are doing; and

WHEREAS, public officials and town employees must, therefore, avoid conduct which is in violation of their public trust or which creates a justifiable impression among the public that such trust is being violated via potential, perceived or real conflict of interests; and

WHEREAS, the residents have the right to know how their tax money is allocated and utilized and the potential conflict of interests of their public officials and town employees; and

NOW, THEREFORE, BE IT RESOLVED by the Mayor and Board of Aldermen of the Town of Dover, County of Morris and State of New Jersey, as follows:

TOWN OF DOVER MAYOR & BOARD OF ALDERMEN

RESOLUTION NO. 207-2020

A RESOLUTION OF THE MAYOR AND BOARD OF ALDERMAN OF THE TOWN OF DOVER DECLARING INSTITUTIONAL AND STRUCTURAL RACISM AS A PUBLIC HEALTH CRISIS AND APPOINTING ALDERMEN TO LEAD THE RACIAL EQUITY INITIATIVE

WHEREAS, health disparities have existed in America for more than 400 years and we now are witnessing a coronavirus pandemic, which is shining a stark light upon the long-running racial divide; and

WHEREAS, the CDC has reported that non-white Americans (median age 31) are younger as a whole than white Americans (median age 44), but Covid-19 deaths among those under age 65 exceeded their proportion of the population; and

WHEREAS, the researchers found that 33.9% of people under 65 who died were Hispanic, yet they account for just 20% of the under-65 population in the U.S.; and

WHEREAS, similarly, Black, Asian, and other non-white people accounted for 40.2% of deaths under 65, though they make up just 23% of those under 65 nationally. Black people accounted for 30% of deaths under age 65; and

WHEREAS, according to Johns Hopkins, Black and Latino Americans who get infected are more likely to have pre-existing conditions that increase their risk of severe illness and because they are more likely to be uninsured, they tend to put off seeking treatment and are sicker when they do receive care and moreover, they tend to receive less aggressive treatment than White Americans; and

WHEREAS, at home, crowded housing conditions make it harder for Black and Latino Americans to practice physical distancing, and many of them work in essential jobs that cannot be performed remotely; and

WHEREAS, there is clear data to illustrate that racial inequality negatively impacts the lives of Black and Hispanic members of our society, the current COVID-19 crisis has helped to highlight now, more than ever, that racial inequality, not race itself, causes disproportionately higher rates of homelessness, incarceration, and economic hardships for Minorities and racial inequality is evident on systemic, institutional, and interpersonal levels, all operating over the course of time and across generations; and

WHEREAS, the nation-wide negative repercussions of historical racial and ethnic inequality, including but not limited to discriminatory lending practices of the 20th century known as “redlining” and the current limitations and access to healthy, nutritious food, reduced life expectancy, increased rates of lead poisoning, limited access to clean water, and higher rates of infant mortality demonstrate the current impact of racial inequality; and

WHEREAS, the Town of Dover is engaging directly in a reform agenda for public safety, based on research to fight racial inequality wherever it is found within our systems, including

recommendations to reform the Dover Police Department (DPD), including from the independent audit of our police department to improve accountability with the implementation of a public advisory committee, document publication on the DPD website for transparency, and building trust between residents and our Police through community policing; and

WHEREAS, the Dover Police Department internal affairs complaint form and an officer commendation form in both English and Spanish shall both be prominently displayed in the main lobby of the police department freely accessible to members of the public; and

WHEREAS, this allows individuals to obtain a complaint form without having to interact with an officer; and

WHEREAS, Members of the public can use these forms when they would like to positively recognize an officer for their professional conduct or to file a complaint against an officer; and

WHEREAS, Mayor Carolyn Blackman and the Board of Aldermen recognize that not everyone in Dover has the same opportunities to be healthy, as there are differences in health based on race, ethnicity, sex, neighborhood, income, education, sexual orientation, gender identity, and other factors; and

WHEREAS, further research has shown that the neighborhood that one lives in, ones access to quality housing, a good job, and a good education has a greater impact on ones health than does genetics or access to care; and

WHEREAS, the members of Dover Board of Aldermen have steadfastly supported, will continue to support, and will continue to implement efforts that focus on improving the quality of life and equity for each and every Dover resident; and

WHEREAS, racial inequality impacts Black, Hispanic, and Minority people in America in ways that some others cannot understand, for example, the performance of simple tasks like driving, walking in neighborhoods, just going to a park come with certain risks not experienced by others, and life events like getting a job, purchasing a home, buying a car, or just raising a family come with barriers that other cultures do not experience; and

WHEREAS, this Board of Aldermen believes that it is now time to declare racial inequality a public health crisis in our community, because the disparities that we have outlined represent a public health crisis that affects us all, and we as a civil society have an obligation to raise awareness and make sure that every sector of our society works to reverse this crisis; and

WHEREAS, this Board of Aldermen urges every sector of our society to declare these disparities as a public health crisis and to immediately take steps to address, fund, and support areas that strategically reduce the long term impact of the Social Determinants of Health for at risk communities; and

WHEREAS, Dover is committed to honestly and directly addressing minority health inequities, including a systematic, data-driven focus on poverty, economic mobility, and other factors that impact the social determinants of health; and

WHEREAS, minorities are impacted more greatly by challenges and inequities in many areas, including but not limited to Crime, Social Capital, Education, Transportation, Employment, Food Access, Health Behaviors, Socioeconomic Status, Environmental Exposure, Access to Health Services, Housing, and Public Safety; and

WHEREAS, the American Public Health Association, the American Medical Association, the American Academy of Pediatrics, and the American College of Emergency Physicians, are among the organizations calling racial inequality a public health crisis; and

WHEREAS, the members of Dover Board of Aldermen recognize that racial inequality is real and as a community we have to work together to promote equity and eradicate racial inequality.

WHEREAS, on June 9, 2020, the Mayor and Alderman passed resolution 164-2020 becoming the first municipality and government entity in New Jersey to join the joining the Government Alliance on Race and Equity (GARE).

NOW THEREFORE, BE IT RESOLVED by the Mayor and Board of Alderman hereby declare racial inequality as a public health crisis in the Town of Dover and recommits our full attention to improving the quality of life and health of our minority residents and hereby, and;

BE IT FURTHER RESOLVED the Mayor of the Town of Dover will appoint immediately an Ad-Hoc committee composed of four Aldermen representing each ward to develop by December 31, 2020 a Town Equity and Empowerment Initiative Report centered on five primary goals: (1) The Town of Dover reflects the community it serves; (2) purposeful community outreach and engagement; (3) equitable service delivery to all residents and visitors; (4) support human rights and opportunities for everyone to achieve their full potential, and (5) commitment to equity in local-government decision-making.
